**Mirror Lakes Neighborhood Reconstruction**  
**City of Edina Contract No. ENG 09-6**

September 15, 2009

Mirror Lakes Neighborhood Reconstruction

Dear Resident:

Miscellaneous construction items are continuing to be completed in your neighborhood. Work remaining includes restoring the boulevard areas, paving the roadway's final bituminous wear course and other restoration items.

The neighborhood will be receiving sod as soon as the later part of next week. (approximately September 21) Once again please remember the contractor is **ONLY** responsible for watering the sod for the first 42 days. Your assistance is very important to ensure healthy grass – especially during the hot summer months when new sod is easily stressed without adequate water. Please refer to the “CARING FOR YOUR NEW SOD FACT SHEET” we are sending you for more detailed information.

Now that the top soil has been placed, please contact your irrigation/pet containment contractor and schedule a date to repair damages to the systems as a result of the roadway construction. **Please inform your contractor to invoice the City of Edina, Engineering Department, directly for the repair work** (see address below). Please contact us if you need any assistance to coordinate this work. We understand that some systems may not be repaired until next spring, however, please note that all reimbursements, either to the homeowner or a contractor, by the City of Edina **must be made by October 30, 2009**, no exception.

Please remember, schedules are weather dependent and as always, please contact me if you have questions or comments regarding this project:

Thanks for your continued cooperation and patience during construction.

Sincerely,

Jeff Frahm  
City of Edina Project Manager
